

**SeePoint offers a full line of fully integrated, interactive kiosks that unite the best kiosk features in a compact, durable and stylish design.**

Available with 15", 17" or 19" Displays

CP1000STD.A

## CounterPoint™

This compact countertop kiosk can be set up almost anywhere. A great choice when you want mobility or the ability to easily reconfigure your installation.

SP1000STD.A

## SecurePoint

Ideal for installations that require a fixed solution with a small footprint. Fastens seamlessly and easily integrates into displays, exhibits, booths and other kiosks.

WS1000STD.A

## WallStation

When space is at a premium or you need an out-of-the-way solution, this wall mounted kiosk system fits right in. Easy to mount with supplied bracket.

AI1000STD.A

## All In One

Using the VESA mounting system, this kiosk easily attaches to a variety of poles, swing arms, walls and rolling carts with full tilt and pivot capability for the terminal.

VP1000STD.A

## VantagePoint Light

This kiosk is thin, good looking and knows how to accessorize! With a small footprint and slender profile, see how small a full size kiosk can be.

VP2000STD.A

## VantagePoint™

Designed for style and engineered for performance, this kiosk supports dozens of peripheral devices and provides stature, signage opportunities and great visibility.

VP3000STD.A

## VantagePoint Print

With its range of printing capabilities (Receipt, 4" and 8.5 x 11"), this kiosk has all the functionality and features of a conventional kiosk cabinet in a fraction of the space.

TP1000STD.A

## TicketPoint

A completely automated and secure self-service ticketing system that provides users with hassle-free, high speed ticketing services 24 hours a day, seven days a week.

VP2000SS.A

## VantagePoint *Sterling*

Stand out with this sleek and elegant freestanding kiosk constructed from the highest quality stainless steel. Other models available with stainless steel options.

**SeePoint kiosks give you big power with a small footprint and sleek profile. SeePoint systems provide robust and responsive multimedia computing and support a wide array of peripheral devices for a dynamic interactive experience. Unlike a typical panel PC, SeePoint kiosks are designed for customer facing and unattended applications in almost any environment.**

**To create an instantaneous self service solution, just remove the SeePoint kiosk from its box, plug it in and load your website or custom application.**
