# About us

## RIDES AND FUN IS PART OF THE GROUP TOMASONI

**TOMASONI MECCANICA** represents a very important processing and machining contractor that started as a small company in early 1980 by the will of its founder, Pietro Tomasoni.

The company is set on an area of **20,000 square meters** in which **11,000 square meters** are covered and equipped with lifting cranes with capacity up to 50 tons and a remarkable variety of machineries with large working range of use giving the offer of an extremely articulate and flexible manufacturing facility supported by qualified and skilled personnel, capable of mechanical and structural work with varied shapes and sizes for any productive sector: steel, extrusion machines, printing and labeling machines, hygiene machineries, working wood and nailing machineries, cardboard machines, textile sector and little experience in the marine industry.

**TOMASONI MECCANICA** can offer installation, painting and manufacture of hydraulic powerplants and electrical systems and can also provide transportation up to 18 tons. Through the help of external partners the company can offer the service of gearing, heat and surface treatment.
