Observation towers

Gyro towers similar to those listed below that were built prior to 1971 did not involve Intamin and therefore should not be listed here. Well-known rides such as Cedar Point's Space Spiral, AstroWorld's Astroneedle and Coney's Space Tower were built by Willy Bühler Space Towers Company of Berne, Switzerland with cabins by Von Roll. In 1971 Intamin started marketing these towers and contracted these same companies to build them. Willy Bühler Space Towers was eventually acquired by Von Roll.
