# Roller Coasters

our traditional custom wooden coasters that we design, manufacture and install any where in the world or steel roller coasters by **Fabbri Group** and by **Preston & Barbieri** that we are the exclusive distributors for in the U.S.A. and Canada.

## Wooden Coasters

Martin & Vleminckx designs, manufactures and delivers innovative, one of a kind, traditional wooden roller coaster with state of the art trains. Recent wood coaster firsts include: The High Five, Barrel Roll, and varying degrees of over banked turns. With more new elements currently under development we can custom design a unique and tailor made ride to fit your site and budget. Rugged terrain, flat surface, large or small, design and delivery anywhere in the world is our expertise.

## Steel Coasters

Martin & Vleminckx is the exclusive distributor in the U.S.A. and Canada for **Fabbri Group** and **Preston & Barbieri** major rides. Contact us to learn more about these exciting amusement ride solutions!

### Coaster Double Race

A coaster with dual tracks and two sets of trains that are launched together and duel one another to the finish. This ride is manufactured by **Preston & Barbieri** and distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

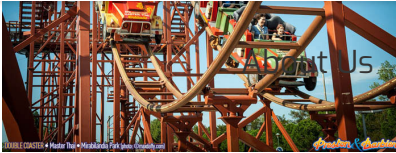

### Coaster Family

This ride is built with the newest construction standards and consists of a train travelling along the steel track in the first lift or by chain. This ride is manufactured by **Preston & Barbieri** and distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

### Coaster Loop

Loop Coaster give you the sensation of flight ... an experience never done before! The Loop Coaster belongs to the category of the family thrill coasters, which have proven to be very popular around the world. This ride is manufactured by **Preston & Barbieri** and distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

## Coaster Splash

This is a smashing compact and exciting family water coaster. The Water Coaster is an attraction combining some of the thrills of a roller coaster with those of a water ride. This ride is of enormous value to any park due to its popularity with adults and children alike. This ride is manufactured by **Preston & Barbieri** and distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

## Coaster Wild Mouse

This is a great entertainment for the entire family. The Wild Mouse has a compact footprint with multiple levels of twisting turns and drops of steel track. Different theme options are available as well as a spinning wagon version. This ride is manufactured by **Preston & Barbieri** and distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

# Ferris Wheels

The **Ferris Wheel** is as aesthetically pleasing as it is visually iconic for any park setting. Its slim metal structure provides riders a new way to see your park's surroundings from up high. Today's modern Ferris Wheel offers a variety of options and decorative themes to choose from. The Ferris Wheel has open cabins with seating for 6 passengers each providing a perfect viewing experience with comfort and high visibility. Different cabin configurations and lighting packages are available as well as both concrete foundation and steel base options depending on the model selected including classic open gondolas, balloon gondolas, round open gondolas or closed cabins. Different models are available with 12-27 cabins and ranging in height from 17.2m/57ft to 40m/131ft. These Ferris Wheels are manufactured by **Fabbri Group** and distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

## Scary Drop

**Scary Drop** is the only attraction that generates real free fall with a ZERO GRAVITY sensation in absolutely safe conditions with its PERMANENT MAGNETIC BRAKING technology. For this reason it remains a very popular and successful ride. The passenger unit is lifted up to the top of the tower by means of a steel cable winch, then released and plummets downward in "free fall" creating a feeling of being "weightless". Strong magnetic brakes provide safe deceleration and a high G-force sensation for riders. **Scary Drop** Scary Drops are extremely safe with the braking system always active and not controlled by any electric and/or electronic device. Using special fins installed on the tower structure, a strong magnetic field is created between the ride structure and the gondola ensuring consistent and safe deceleration every time. **Scary Drop** Scary Drop is available in different models with heights ranging from 20m/65ft to 75m/246ft. These Drop Towers are manufactured by **Fabbri Group** and distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

## Boosters

**Booster** combines extreme sensations and spectacular movements, and is visible from far away attracting visitors to the Park as an iconic landmark. With multiple ride configurations and heights available, **Booster** does not require a lot of ground space and has a perfect capacity for any type of park. The ride has one loading/unloading position in the station. Passengers are seated on free spinning vehicles back to back, with dangling legs. Each vehicle is equipped with shoulder bar closed by a double locking device. **Booster** can accommodate from 8-24 passengers (depending on model) as they are seated on free spinning vehicles back to back with dangling legs. While Car 1 is in the station for unloading Car 2 is in top and its passengers enjoy a nice panoramic view. Vehicles

**Booster** is available in different models that vary in height and seats: 30m/99ft with 8 seats, 40m/131ft with 8 or 16 seats, 50m/164ft with 16 seats, or 75m/246ft with 24 seats. This ride is manufactured by **Fabbri Group** and distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

## Water Rides

### Rapids Adventure

The Rapids Adventure is a water ride suitable for the entire family. The ride is a water-ride placed in a dry park where riders can take place without getting wet. Riders will experience a 'wild' descent through a canyon river. This ride is manufactured by **Fabbri Group** and distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

### Flume Ride

The **Flume Ride** allows passengers to experience a unique sensation, descending from hills and splashing into the pool with special water effects. This ride has 3 model options: Family, Mini and Major. This ride is manufactured by **Preston & Barbieri** and distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

## Splash Battle

**Splash Battle** is a fun interactive water ride designed for the whole family to enjoy. The vehicles move around a lake on a predetermined path. On-board water cannons allow riders to shoot jets of water at other ride vehicles.

**Splash Battle** is available in Classic, Compact or Giant versions. This ride is manufactured by **Preston & Barbieri** and distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

## Family Rides

### Avio

**Avio** is a mechanical engineering marvel! With auto-piloting control motion, **Avio** offers enthusiastic riders aerial acrobatics in a safe ride vehicle for theme parks and traveling carnivals. The mechanical auto-piloting control (gyro-piloting) stimulates excitement and adrenaline rushes for riders as they raise and lower the ride vehicle using the onboard control stick. Design theme options for the passenger vehicles and on the center rotating pillar include Warriorplanes, Butterflies, Bees, Horses, Elephantines, Birds, Fish, and Seahorses. **Avio** is available in 3 model versions: Family, Mini, and Interactive Eureka which adds a fun interactive race where all the flying vehicles compete against each other. This ride is manufactured by **Preston & Barbieri** and is distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

## Crazy Cups

**Crazy Cups** (or Tea Cups) is well known all over the world as a popular family entertainment ride. The smaller turntables rotate clockwise with several seating cabins mounted on them. One large turntable, rotates counter-clockwise with all the turntables and seating cabins. **Crazy Cups** have multiple design theme options and are a big hit at amusement parks, carnivals and shopping malls. This ride is manufactured by **Preston & Barbieri** and is distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

## Flying Swinger

The **Flying Swinger** represents one of the most classic attractions in the market. Passengers are seated in chairs and have the sensation of flying as they are spun around the tilting center structure. This ride is manufactured by **Preston & Barbieri** and is distributed exclusively by Martin & Vleminckx in the U.S.A. and Canada.

# Installation & Relocation

all states and sizes have been completed in the United States, Canada, Mexico, South America, China, Malaysia, Europe, and most recently Vietnam. Past projects include the installation of the two largest roller coasters in the world. Our expertise ensures that any ride installation or relocation, steel or wood, large or small, anywhere in the world will be successful.
